

EURUS GS-1 ELECTRONIC GUITAR

A Bold New Voice
for Sound Innovators

MODEL GS-1-CTMBK

PIDD 15 JULY 2021 – 08:00GMT / 09:00CET | AVAILABLE OCTOBER 2021

Premium electric guitar with advanced BOSS synthesizer technologies for unlimited musical expression.

Every guitarist is on a highly personal tone journey, continually honing their skills and searching for the perfect gear combination to unleash their full potential.

The EURUS concept presents a bold new creative path for adventurous sonic explorers, expanding the traditional guitar experience with powerful and expressive BOSS technologies. Born from this breakthrough approach, the EURUS GS-1 infuses a premium instrument with advanced guitar synthesis techniques refined over more than four decades. Deep, inspiring, and infinitely playable, the EURUS GS-1 will take your musical vision where it's never gone before.

- Cutting-edge BOSS synthesizer guitar, crafted in Japan for bold sound innovators
- Seamlessly switch between synthesizer and regular guitar sounds
- Six onboard memories for storing different synth sounds
- Premium playability with 24-fret neck, compound radius rosewood fingerboard, and offset double-cutaway body design
- Two custom-designed pickups and five-way selector switch
- Gotoh two-point tremolo bridge and locking machine heads
- Independent 1/4-inch outputs for synth and regular guitar sounds
- Deep editing of synth sounds via dedicated app for iOS and Android devices
- Onboard Bluetooth® for connecting with editor app and optional EV-1-WL Wireless Expression Pedal
- USB for system updates via a Mac or Windows computer
- Synth engine runs on four AA batteries or optional PSA-series adaptor
- High-quality CB-EG10 gig bag included
