

RC-600 LOOP STATION

Flagship floor-based Loop Station with
next-level sound quality and flexibility

PIDD 14 OCTOBER 2021 – 08:00GMT / 09:00CET

AVAILABLE JANUARY 2022

Next-generation floor-based looper with six stereo tracks, best-in-class sound quality, massive onboard effects options, and unmatched real-time control.

Meet the RC-600, the most advanced looper on the planet. Loaded with evolved features and customizable functions, this next-generation Loop Station ushers in a new era of creative power for guitarists, singer/songwriters, multi-instrumentalists, and other looping musicians.

Capture multiple mics and instruments with six stereo tracks and premium 32-bit sound, and take full command with nine freely assignable footswitches and deep external control support. And that's just the start—you can also color loops with a massive FX selection, groove with onboard rhythms, route audio as you like to the three stereo outputs, integrate with computer software via USB, and much more.

- Class-leading sound quality with 32-bit AD/DA and 32-bit floating-point processing
- Six simultaneous stereo phrase tracks
- Ultra-flexible onboard control with nine freely assignable footswitches and three pedal modes
- 49 Input FX and 53 Track FX types and the ability to use four at once in each section
- Time-based effects can automatically sync to rhythms and loop tempo
- Two XLR mic inputs with phantom power, two stereo line input pairs, and three stereo assignable line output pairs
- 99 memories, each containing six phrase tracks, custom effects and playback settings, control assignments, and more
- Synchronize your loops with over 200 onboard rhythm patterns and 16 drum kits
- Deep MIDI control support
- Large circular loop status indicator and informative LCD screen with selectable display modes
- Two external control jacks, each with support for up to two footswitches or an expression pedal
- USB for data backup, phrase import/export with BOSS Tone Studio, and pattern import with the RC Rhythm Converter
